

## Episode 2: The Journey of the Star

### Craft: “Starry Night Sky” Craft

In this episode, Ella and Sam are with the shepherds on a cold night when they see the angel and the bright star shining in the sky. Create your own starry night sky to remember that special moment when the angel told the shepherds about Jesus' birth.

### Materials Needed:

- Black or dark blue construction paper (or color plain paper with crayons/markers)
- Aluminum foil
- Glue or tape
- White crayons or chalk
- Optional: Glitter or stickers

### Instructions:

1. Use a white crayon or chalk to draw a nighttime scene—include stars, the moon, or anything you want to decorate your sky.
2. Tear small pieces of aluminum foil and glue them onto the paper to represent bright stars or the glowing angel.
3. For added fun, sprinkle a little glitter or add star stickers to make the night sky shine even more.
